

V SKY EVAP COOLING PADS

7090

7060

V Pad 7090 / 7060 Evaporative Cooling Pads

Our Evaporative Cooling pads are high quality pads constructed from fluted cellulose paper sheets that have been glued and impregnated with a unique formulation that allows the pads to have a high structural integrity as well as high evaporation efficiency performance when exposed to water.

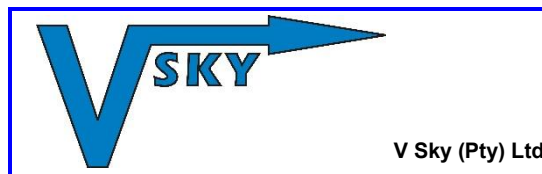

- Wet Walls
- Agricultural
- Farming
- Poultry
- Livestock
- Pig Farming
- Greenhouses
- Cannabis Cultivation
- Exposed Adiabatic Pre-Cooling

Specifications (Black Coated or Plain)

Type	7090(45/45)	7090(60/30)
Height	2000 / 1800 / 1500 / 1200	
Standard Width	600	
Thickness	100 / 150 / 200	
Bisector Angle	90°	
Flute Orientation	45 / 45	60 / 30

Type	7060 (45/15)
Max Height	2000 / 1800 / 1500 / 1200
Standard Width	600
Thickness	100 / 150 / 200
Bisector Angle	60°
Flute Orientation	45 / 15
