EQUINETOX

Liver Health

DESCRIPTION
Equinetox® is a hepato-protector that revitalises liver activity. It improves normal liver function for the maximum utilisation of ingested feed and the better utilisation of total lipids (fats) in the diet ensuring a greater available energy level.

INDICATIONS
Improves liver functions by increasing bile production in horses

BENEFITS

- Increased bile production
- Liver support and recovery
- Improved toxin neutralisation
- Assists with neutralising acid produced in the stomach
- Improved absorption and digestibility of fat

DOSAGE AND ADMINISTRATION

SPECIES	DOSAGE	ADMINISTRATION
Horses	2 ml / 30 kg body weight every 12 hours in clean drinking water	Treat for 7 days continuously or as indicated by a veterinarian
