

TECHNICAL DATA SHEET

BETASPRAY

Liquid Hand Sanitiser

DESCRIPTION

Betaspray has been specially formulated as a liquid hand sanitiser, which will rapidly and effectively sanitise the hands by inactivating a wide array of potentially harmful microorganisms without causing dryness. When used as directed, Betaspray is effective against all alcohol sensitive bacteria, yeasts and moulds. Betaspray complies with the World Health Organization's (WHO) handrub formulation guidelines.

METHOD OF USE

Apply about a teaspoonful (5ml) of Betaspray onto the hands and work in well. Do not rinse off with water and allow to air dry. Betaspray may also be applied via specialised dispenser units. It is recommended that Betaspray be applied prior to and after any contact has been made with suspected contaminated surfaces and/or areas.

ACTIVE INGREDIENTS

Isopropyl	> 70%
pH(10%)	7.5

PROPERTIES

Appearance	: Clear, blue liquid
Odour	: That of alcohol
R.D. @ 20° C	: 0.85

PACKAGING

Betaspray is packed in 5 litre polybottles.

PRECAUTIONS

Betaspray when used as directed is essentially non-hazardous. Contact with the eye will cause a stinging sensation. If this occurs, flush with copious amounts of water and seek medical advice. If ingested, drink plenty of water and seek medical attention. Do not induce vomiting.

For further information, consult the safety data sheet.
